The restaurant industry has been severely impacted by state shutdown orders. As states start reopening businesses, it is vital to know the applicable rules that apply to your location or locations. Whether you operate a single location or a multi-unit operator, compliance will include assessing business operations, bringing employees back to work, and ensuring a safe operation for customers and employees. In an effort to assist the restaurant industry, our Hospitality Practice Group has prepared a comprehensive state-by-state chart that addresses your most commonly asked questions. For each state, we provide information regarding dine-in restrictions, face mask requirements, employee temperature-taking, customer health checks, sanitation, paid sick leave, and much more. Download the chart, find your state, and get ready to reopen!
